

ACADEMY PROGRAM

Year 7 – Year 9

2027

Nurturing **REAL** Leaders of Tomorrow for a brighter future — exploring, crafting, shaping perspectives and innovating for the **REAL** world.

The Academy Program is designed for motivated and high-achieving students in Year 7 – 9 who are ready to be challenged, inspired and extended across all core subject areas:

Science | Mathematics | Technologies | English | Humanities

Why Choose the Academy Program?

- ✓ Higher-order thinking skills
- ✓ Confidence, resilience and independence
- ✓ Advanced problem-solving and analytical ability
- ✓ A passion for learning in real-world contexts

Students are supported to deepen their understanding, refine their skills and take ownership of their learning journey. Lessons are designed to challenge highly capable learners, with flexible pacing and extension opportunities that allow students to grow academically and personally. Places are limited.

Applications Open 29 April 2026 – Close 15 June 2026

Details of the Academy Program can be found on the College Website

ACADEMY

PROGRAM

Year 7 – Year 9

2027

What Will Your Student Experience?

Science: Through hands-on investigations and inquiry-based learning, students analyse data, test ideas and apply scientific thinking to authentic, real-world problems.

Mathematics: Students engage in complex reasoning, advanced problem-solving and meaningful real-world applications.

Technologies: Students design, code and innovate through engineering challenges and digital technologies projects, developing creativity and computational thinking skills for the future.

English: Students explore complex fiction and non-fiction texts, develop their own distinctive writing voices, and refine their skills in analysis, comprehension, and communication.

Humanities: Students engage deeply with history, geography, economics and global issues, learning to think critically about society, sustainability and the world around them.

Beyond the Classroom

Academy students have opportunities to participate in a wide range of academic competitions, workshops and experiences. These experiences extend learning beyond the classroom and connect students with authentic academic and industry pathways.

Is This the Right Program for Your Student?

The Academy Program is ideal for students who:

- ✓ Demonstrate curiosity and creativity
- ✓ Show commitment to excellence
- ✓ Enjoy academic challenge
- ✓ Are ready to take ownership of their learning
